NO. 47.

Brother Simpson Preaches Here

The Baptists did not get to occupy the old Presbyterian church Sunday as expected owing to people who have been holding a meeting there holding over Sunday, but the minister who came in Bro. Shearer's stead occupied the stand at the Christian church morning and evening preaching two good sermons which were well received. Elder Shearer was called to Junction City and has accepted. He will not return to Clay City regularly. The situation presents itself thusly, if the Baptists of Clay City are to have regular preaching they must have a house. They cannot depend upon getting the Union church when needed and it is asking too much to use the other churches regularly.

Another Good Well

Well No. 1 on the lease of the Nancy Martin heirs was brought in Monday. The first pay was conservatively estimated to yield a million feet, and the second pay will most likely double the capacity of the well. The well is the property of Messrs. O. L. Knight, Wm. Armour and others who plan to make further developments. The Virden field is being more clearly defined each time a new well is brought in, and prospective operators can feel assured of some result if they drill in the defined section.

Federal Court Jurors

Following are Federal Court Jurors from Powell serving at Richmond: M. F. Carr, Clay City; Henry Faulkner, Stanton, Grand Jury; Chas. Rice, Stanton; Carl Garrett, Clay City; Clinton Combs, West Bend; Clarence Estes, Vaughn's Mill; John A. Rogers, Xena; A. P. Johnson, Clay City; Butler Barnes, Stanton.

Buried at Winchester

James Bloom whose death notice appeared in our last week's issue was taken to Winchester and buried in the cemetery there. Services were conducted at his home before starting for burial by the Rev. J. R. Nelson of the Methodist church. A large circle of friends deeply sympathize with the bereaved family in their sad hour.

Gets Agency for Ford's Rival

The Stanton Garage has closed the deal to represent the Durant Motor Company in the sales and service of the Durant and Star automobiles. The Star is a rival of the Ford machine, and bids fair to find ready sale. Messrs. Proffitt and McAnallen are to be congratulated upon getting the distribution of these two popular cars.

Pastor Resigns

The Rev. H. S. Early has resigned the care of the Christian church to accept a call to a church that takes him full time.

Garrett to Fayette for Jury

By agreement of both sides, Wm. Garrett, a former Sheriff of the county, has been made a Deputy Sheriff and went to Fayette county Tuesday for sixty veniremen from which to select a jury to try Jesse Swango for the killing of Wayne Bowen at Stanton last Spring. The trial came up yesterday morning. A former trial was before a Madison county jury in this county last June which resulted in a hung jury. Judge J. M. Benton and A. Floyd Byrd will assist in the prosecution. John D. Atkinson and C. F. Spencer are attorneys for the defense.

Ready for Xmas Trade

The store and show windows of Chapman's store are filled with valuable and useful Christmas articles and toys too. It is a grand display, one that would be a credit to a town much larger than Clay City. The big ten-day sale at this store advertised in these columns began yesterday morning and promises the same big success that a similar sale was last Spring. Everything everybody needs that should be kept in a first-class department store is right here at the right price. Go and be convinced that we are telling you the truth.

Generator Damaged Again

One of the generators used for making light and power for the town was received from the repair shop at Lexington and installed Monday. It ran but a few hours when it again burned out. Mr. Bashaw has been having a great deal of trouble with his electric plant all along, but he has furnished us current most of the 24 hours a day in spite of the mishaps. He will soon receive the new large plant which will wholly relieve the present overload on his plant.

L. & N. Pays City Tax

The L. & N. Railway has forwarded to the town Treasurer its city tax for the current year. The amount of tax coming to Clay City was \$226. This amount will help a little in a tight place. The L. & N. school tax has not yet been received into the school treasury.

Building Road Our Way

Estill county is building the road our way first. The material is on the ground to build two concrete bridges. The survey for the road has been located about one mile from Irvine coming this way.

Avoid the Penalty

Pay your tax by December 1st to pay 6 per cent penalty after December 1st—or be sold out for this tax, penalty and cost January 1st. It pays to pay now.

Joe Mountz reports the sale of a new Ford touring car to Thos. Curtis, and a new Ford coupe to Judge John H. Hardwick.

Circuit Court Convenes

The Powell Circuit Court convened Monday at Stanton with Judge W. R. Shackelford presiding and Commonwealth's Attorney W. J. Baxter and County Attorney A. T. Stewart prosecuting. The Judge's instructions to the Grand Jury were strong and to the point. Every citizen of the county should have heard them. Floyd Byrd, of Lexington; J. M. Benton and C. F. Spencer, of Winchester; G. B. Stamper and Leburn Allen, of Campton are visiting attorneys.

Scores were on hand to pay their tax to avoid the penalty which will be added December 1st. The Sheriff's office was the busiest place in town Monday.

Bluegrass Gasoline

The Clay City Garage has a new headlight globe on its gasoline visible measuring pump announcing Bluegrass Gasoline. Bluegrass Gasoline is a home product. Randall Stokely, a native of this county, is general manager of the Great Southern Refining Company, producer of this gasoline. Much of this gasoline is refined in this county at Slade and George Ewen, a Powell county man, is foreman of the plant, and Franklin Smith, of Clay City, is head bookkeeper for the firm. You may feel safe that you are conforming to the "Home Trade" policy when you buy Bluegrass Gasoline and Bluegrass Kerosene.

Wants Clock in Court House

Estill county is to repair its Court House at Irvine and the Tribune is agitating a clock to be placed in the cupola. The Tribune is right Irvine should have a town clock. And the Times believe the space in the Powell County Court House left for a clock should also be filled with a good time piece.

Thanksgiving Next Thursday

The annual Thanksgiving will be with us again next Thursday. The people of Powell county have every reason for giving thanks this time. They have good crops and a splendid opportunity to harvest them. The only setback is that turkey is scarce and high this year.

Meeting Closes

The meeting at the former Presbyterian church closed Sunday night after a continuance of more than two weeks. Fifteen were baptized Sunday afternoon as a result of the meeting.

Hog Killing Weather

We have had a few days of nice hog killing weather the past week, but many farmers are afraid to trust a continuation of enough coal to save their meat.

School Money Received

The third installment of the State school money has been received by the Clay City Graded and High school. The amount of the check is \$161.21.

Clay City Court

Saturday was a very rainy day for court day, and as a consequence there were no cattle or hogs on the market. A number of horses and mules were here despite the rain. Trading was brisk and lively, but prices were low.

We saw what we thought was a street parade the other day and began to look more closely and chanced to see that it was a crowd going to work on the new road with scrapers and other tools HURRAH for the road we are hoping how quick is finished.

The writer of the Stanton news, Andrew Hollars, will appreciate it very much if any one in town has any news of general interest if they will leave the same at his place, the new house of Dr. J. E. Leming that he has just moved into, or hand it to him when they see him.

There was a meeting of the Board of Directors of the Powell County Bank Monday.

Of Interest to All

There is one feature of this paper that if overlooked, the reader is making a mistake. That is the reading of the classified ads. It is both profitable and instructive to do this. This part of the paper is growing more popular each week both with those who have something special to sell and those who are looking for something to buy. Do not fail to read the classified ads in the Times each week.

A HOME-MADE PAPER.

THURSDAY, NOV. 28, 1922

SUBSCRIPTION RATE,
ONE DOLLAR PER YEAR.

Entered as second-class mail matter at the Post Office at Clay City, Ky., under the Act of Congress of March 3, 1879.

Why the Times is Sometimes Late

The following taken from the Kentucky Press Association Bulletin may explain why the Times is sometimes late in out of country post offices:

The Post Office department at Washington has established throughout the country certain terminal offices to which the weekly papers are sent instead of being sorted on the railway mail train. The result is that they are delayed from 12 to 48 hours every week in delivery. Daily papers are given the right of way and come through more promptly. Both pay the same rate of postage and it is unfair to show any discrimination.

A paper published not over 65 miles from St. Paul states that while its publication is in St. Paul by Friday night it frequently does not reach its subscribers until Monday or Tuesday week. The people have a right to better service and the National Editorial Association is going to see if this discrimination against the weekly paper can not be removed.

School Attendance Slack

This is the time of the year when the attendance at many of our country schools begin to slacken. Many of the children stay at home to help in the fall work, some remain because they are tired of going, and their parents do not compel them to go. This is the reason all country schools should be mostly taught in the warm months. Schools should begin as early in July as possible and kept going all the time until the term is finished, unless the school is left off altogether over the winter months and finished up in the Spring.

Big (?) Check Received

The Times is in receipt of an unusual check. It is for 22 cents on a Cincinnati bank in payment of a classified ad of 22 words. This is the largest (?) check ever received in this office, stamps generally being received for small amounts. But then any old way will pay us, especially about tax-paying time.

Dr. J. T. Nickell, our dentist, will be in Clay City in a short time to pull and "plug" teeth. Watch for the announcement of the exact date in these columns later.

Shelt McKinney is moving temporarily to Slade to engage in sub-contract work on the new road. Mrs. Belle Burgher will move to Mr. McKinney's while he is away.

Evolution Colleges Dropped

The General Association of Baptists at Middlesboro passed resolutions in no uncertain terms denouncing evolution, and voted to withdraw all support from schools teaching anything contrary to the Bible. Only two delegates dared to oppose the resolutions.

The usual crowd from Clay City is attending Circuit Court at Stanton.

The occupants of a hotel in Lexington have secured an order to have the striking of the clock in the Government building nearby stopped because it disturbs their slumbers at night. When did these people begin sleeping at night? We thought they slept in the morning.

High Lights on Highways.

How climate affects the highway working season is shown by the fact that grading can be done only 100 days of the year in western Oregon, 153 days in Kentucky, 110 in Maine to 300 in a few of the Southwestern states.

One hundred and twenty vehicles a minute was the rate at which motor vehicles passed an observing station on a trunk-line highway in Massachusetts. This rate was kept up from noon to 10 o'clock at night.

Recently a tourist in passing through four different states was required to buy a new set of lenses in each state in order that his headlights would comply with the laws of each state as he passed through.

The Bureau of Public Roads of the United States Department of Agriculture states that there are enough motor vehicles in the United States to take the entire population for a ride at one time.

From 19 to 35 cents per hour is the range of wages for common labor on Federal aid roads east of the Rocky Mountains, with a few exceptions where it runs as high as 48 cents per hour.

There are four automobiles in this country for each mile of road in the United States.

Federal aid roads placed under construction in September last amounted to 1,189 miles.

Death of Former Editor

E. C. Park, a former newspaper man, of Irvine, died last week in Lexington from a bursted blood vessel caused from a fall down stairs. Mr. Park was about 70 years old and had been palsied for several years. He was a native of Irvine and published the Mountain Sentinel there back in the early nineties. He was an ardent Democrat, and was a personal friend of the editor of the Times. Mr. Park is survived only by one brother, John Park, of Las Vegas, Nevada. He was buried in Richmond cemetery.

The Long Christmas Gift

There are many good gifts that one can choose at Christmas, but for lingering satisfaction, long-drawn-out, what is there, after all, that can be named in the same breath with The Youth's Companion? The fun is only begun with the first Christmas number. Thereafter through the 52 weeks of the long, long year, it is constantly supplying fresh source of amusement and information. Now it is the beginning of a new serial, then it is a contribution of vital interest to the youth interested in sport or science, next it is a brand-new story by C. A. Stephens or A. S. Pier, or a tale of wild adventure in the old Indian days, by men who have actually lived among and powwowed with the redskins. But why say more? No other Christmas gift is welcomed with so much pleasure. Try it and see.

LADY GOT SO WEAK COULD SCARCELY STAND

After Suffering From Many Female Troubles This Lady Heard of Cardui and Took It, She Says, "Until I Was Well."

SOME TIME AGO, says Mrs. Buena McFarland, of R. F. D. 2, Bostic, N. C., "I suffered a great deal with weakness common to women. I had bearing-down pains, my sides and back hurt, and my limbs drew. I would get so weak in my knees I could scarcely stand.

"I was very nervous, and could not rest. I didn't feel like eating. I grew thin, and did not have ambition for anything.

"I had been trying other remedies . . . but did not get any better.

"Some one told us of Cardui, and what it was recommended for. I also

took a Ladies Birthday Almanac and read of a case something like mine. I told my husband to get it and I would try it.

"I saw a great improvement after the first bottle (of Cardui), so I kept it up until I was well. Now I am the picture of health."

Thousands of other women have written, to tell of the beneficial results obtained by taking Cardui, and to recommend it to others.

Cardui has stood the test of extensive use, for more than forty years, in the treatment of troubles common to women.

Try it.

Coal by Truck

We used to use coal from the mines operated by Asa Bowen at Slade, but of recent years mining conditions have been so bad that Mr. Bowen has been unable to load any coal. There is one mine now running at Slade and the coal being wagoned out. When our road is completed, and most assuredly will be next fall, we can have our coal from Slade by truck and thus be independent of the railroad. This road will thus help in many ways other than getting our coal from the mines. We can get coal oil and gasoline from the refinery at Nepon, this county.

Of the 100,000,000 horses and mules estimated to be in the world today, the United States possesses between 26,000,000 and 27,000,000 head, of which 19,000,000 horses and 5,000,000 mules are on farms and a little more than 2,000,000 are in cities.

Reports of highway accidents from all sections of the country indicate that the total death toll for 1922 will be near 15,000 persons.

Corn not so Good in other Counties

The people of Powell county, who have seen this year one of the best crops of corn ever produced in their county can scarcely realize that our Bluegrass counties have the poorest crop in years owing to the drouth in those counties while in Powell it was very seasonable. Corn is selling in some of the lower counties for as much as \$5.00 per barrel.

Express Rates on Calves

A movement is on foot to secure an increase on all commodities shipped by express. This will, of course, include calves. The present rate on calves is unquestionably too high. Where formerly thousands were so handled, the present rates leaving as they do practically no return to the farmer, have strangled the movement. Several attempts have been made to secure more equitable rates, but so far without success. The fight will be kept up by the commission men, however.

Have You Ordered Chevon?

Chevon is beginning to show up on the bill of fare. Lest you make a mistake in pronouncing it call for it as though it were spelled shew on. At the Texas State Fair, Chevon sandwiches were featured, the meat being cooked in barbecue fashion by one famous as a cook in the days when the chuck wagon followed the herd. Chevon, let it be known, is goat meat. It is estimated that some 150,000 goats are slaughtered annually and it was with the view to increase the demand that the sheep and goat raisers of Texas featured it at the State Fair. Chevon is to be found on the dining cars of the southwestern lines and it may be looked for on the menu of the country's leading hotels at any time.
